

METAVVERSE

Tour

Introduce your audience to virtual worlds!

You want to take your first steps in the "metaverse"?

Diversion cinema is an agency specialized in virtual reality (VR) since 2016. With our experience in public mediation for VR works, we guide you in the discovery of the Metaverse. Led by one of our facilitators, explore interconnected worlds as a group during a virtual expedition in VRChat.

Visit the Metaverse

Offer your visitors a "Visit the Metaverse" workshop in the form of a virtual guided tour. Using virtual reality headsets, let them discover the creativity of VRChat worlds, one of the "metaverse" platforms. A Diversion cinema member will guide them through the tour, where they will be able to interact with other participants and take their first steps into the cyberspace.

From poetic and
contemplative
worlds ...

... to interactive and
social ones
