

**HOLES OF MATTER** video animation\_4:26\_ 360° spherical cinema\_ 2022 -  
color -stereo

**SYNOPSIS**

A hole is an aperture, an opening through something, an empty space that gives you access to another.

In an metaphorical way, we can say that holes of matter are the way to discover and explore others fields, through a hole the magical of a potential new world where everything is possible is in.
